APPROVED BY PROFESSIONAL ARCHITECT:

H. Nel - Pr. Arch (24750298)

DATE _____

GENERAL NOTES:

All work is to be carried in accordance with SANS 10400 and other relevant SABS standards.

The contractor shall in all aspects of the works comply with the provisions of the Occupational Health and Safety Act, 1993 (Act No 85 of 1993) as well as the Construction Regulations, 2014, as promulgated by the Department of Labour.

All contractors shall ensure that, before any work is put in hand, they comply with all the necessary Act of Parliament of the Republic of South Africa. This drawing is not to be scaled. Figured dimensions to be used. All dimensions are in millimetres unless otherwise stated.

All levels and dimensions to be checked on-site by the contractor before work is carried out and an *as-built* drawing to be submitted to the Architect.

This drawing must be read in conjunction with all the relevant drawings, schedules and specification from the Architect and all other consultants related to this project.

A. General notes :

All levels indicated are referenced to the assembly datum

1. All structural, electrical, civil and landscaping queries are to be referenced to the relevant consultants drawings, specifications and details.
2. All plumbing queries are to be referred to the relevant specialist consultant drawings specifications & details.
3. All concrete columns and structure to structural engineers details & specifications.
4. All specifications with regard to fire regulations, to be referred to consultants details and specifications.
5. Any discrepancy in the drawings, dimensions & specifications to be brought to the attention of the consultant and the architect prior to any work being put in hand.
6. Dimensions - only figured dimensions to be followed, no scaling of drawings will be permitted.

Blockwork walls

1. In cavity walls having full height 200mm. Wide workpiece joints at maximum 1200mm. Centres.
2. In cavities exceeding 115mm, allow for 15mm. Joint under diaphragm pier and adjoining faces.
3. Ties to be supplied to diaphragm piers, as per structural engineers specifications.
4. Provide movement joints where indicated on drawings marked up by site engineer.
5. All workpiece built butting up to concrete columns to be fixed to face of column with stainless steel "hoop iron" straps to structural engineer's details.
6. Supply stainless steel wall ties in all cavity walls to structural engineers specification.
7. All external walls to be supplied with dpm to internal skin, plus 50mm. Insulation in cavity.

B. Structural Notes:

[illegible]

1. Drawings issued by TDS for construction to site are without structural engineers notes for inlets and beams over openings and recesses.
 2. This drawing is to be read in conjunction with the drawing issued by the structural engineer with notes for inlets, beams, movement joints etc.
- Contractor Notes :
- Contractor to reconfirm all salient values with municipality prior to commencement of work**
1. The contractor shall be responsible for the co-ordination of all services.
 2. The contractor shall comply with all Civil Defence regulations.
 3. The contractor shall submit shop drawings for mechanical, electrical and plumbing services as specialised items and incorporate the details to conceal necessary pipes, cables and conduits.
 4. For the consultants approval prior to commencement of work.
 5. The contractor shall inspect the site prior to any work being put in hand and take into consideration all aspects of the works, to be carried out including any dewatering, if required.
 6. Some of the dewatering to be submitted prior to work being commenced on site.
 7. The contractor shall report discrepancies between the drawings and the dimensions and specifications of the consultant and the architect prior to any work being put in hand.
